features 3DMax 2018 is what professionals use to make 3D models of any object, whether it's an object from a product, an object from nature or even a human face. In the past, 3D artists needed to download 3DMax from the creator's website or pay for a license on the website. Today, that's not the case anymore. Everything is available on Steam.

- 3D modelers, sculptors and painters worldwide can access their designs and creations with a few clicks and prepare them for their 3D printing
- Work on the same models
- Working with high-quality textures and lights
- Content creation
- 3D model

By choosing a home version of 3DMax you can create great models without having to pay an annual license fee. Learning curve:

The application is easy to use for anyone who is used to working with 3D Max. The manual is available in the Additional Information section of the [Steam page](Screenshot: Screenshots are available in the Additional Information section of the [Steam page](System requirements: 3DMax 2018 requires a PC with the following specifications: - Windows 7 or later versions; - 64-bit Windows OS. Important: • Copying, distribution and use of pre-release versions is only allowed for members of the 3DMax team. • 3DMax-Serie 2018 will be posted to the Steam Store on Monday 18.09.2018. • 3DMax 2018 is currently in pre-release status, it will be available on

What's New in the?
