1. Field This disclosure relates generally to system on chip (SOC) power management, and more specifically, to a circuit and method for turbo power tracking on SOCs. 2. Related Art Recent technological advances in SOC fabrication and power optimization technology have enabled finer-grained control over power consumption than previously possible. Specifically, the functional areas or blocks within an SOC may individually be switched between active and inactive power states according to power supply voltage demands. In theory, however, if all of the functional blocks are active at the same time, power consumption would multiply in proportion to the total active functional blocks. By way of example, a SOC may include one or more dual core microprocessors and one or more applications. After the dual core microprocessors have processed instructions and begin processing subsequent instructions, the dual core microprocessors and the applications switch off the power state to memory, disk and peripherals. During this power off period, when the functional blocks on the SOC are not active, they consume static leakage power. Moreover, although active functional blocks may use dynamic leakage power during continuous operation, these functional blocks may be inactive for a portion of this continuous operation, thus, the total power consumption of these inactive functional blocks may exceed the total power consumption of the active functional blocks. Traditionally, a SOC having a large number of functional blocks had little or no control over the power state of these inactive functional blocks.Q: How to share ABAP cache between Java and ABAP I am trying to share the ABAP cache between Java and ABAP because sometimes, the

. Just had a very bad day. Let's say I lost 30-40 pounds in a single day. I called up my doctor thinking things over and then started talking on the phone to my sister because I was stressed out. I noticed that my sister was ignoring me and I was getting more and more irritated. When I looked in the mirror I noticed that I was losing my breath with every sentence. So I just stepped back and started breathing more deeply and when I did I started smiling again. As a girl i'd love to see a trailer of the Rapunzel princess fairy tale movie filmed to the soundtrack of twink twin peaks.... living on a full moon planet.... i'd make a chocolate rocky road sundae extra thick... or eat it.... :drool: GMZ84 08-23-2003, 02:09 PM NOW I'M HUNGRY!! :tongue: imMatty 08-23-2003, 04:19 PM Twin Peaks is a good movie. :smiley: mattfenshaw 08-23-2003, 09:01 PM Well, I guess that explains why I *stopped* listening to the soundtrack! redsock 08-23-2003, 09:07 PM I hear TIE IN THEM ENEMY SOUNDTRACKS was not bad. tommyk 08-23-2003, 11:14 PM Oh well....At least some of the themes ended up on the PAX album.
